Name: Rahul Verma
Email: rahul.verma@example.com
Location: San Jose, California

Summary:

Machine Learning Engineer with 3+ years of experience building NLP models, deep learning systems, and scalable ML pipelines.

Skills:

Python, PyTorch, TensorFlow, SQL, AWS, Kubernetes, Docker, Pandas, Numpy, NLP, Machine Learning, Git, Linux

Experience:

Machine Learning Engineer — CloudAI Systems (2022–Present)

- Built BERT-based text classification models

- Deployed ML models on AWS ECS using Docker

- Developed ETL pipelines with SQL & Pandas

Projects:

- Implemented SBERT-based semantic search

- Built computer vision model using PyTorch
